

# Keypads

## Non encoded output

### 12, 16, 20 and 54 key

#### General

These dust and damp protected compact keypads, incorporating tactile feedback keys, are ideal for use in industrial environments.

4 models available:

- 12 key,
- 16 key,
- 20 key,
- 54 function keys (alphanumeric).

The keypads are constructed using a single piece elastomer membrane, with the keys moulded in.

A rigid support is incorporated for mounting on the panel.

- The degree of protection with respect to the panel is ensured either by compression of the membrane or by a seal.
  - The keys are marked by hot die transfer.
- Keys may be customised (see Order form, pages 35042/5 to 35042/7).

#### Environment

<b>Protective treatment</b>	Standard version		"TC" and "TH"
<b>Ambient air temperature</b>	For operation	°C	- 5...+ 70
	For storage	°C	- 40...+ 80
<b>Degree of protection</b>	Conforming to IEC 529 and NF C 20 010		IP 65
<b>Materials in contact with external environment</b>			Good resistance to the most severe industrial environments. Types of materials: please consult your Regional Sales Office.
<b>Contact bounce time</b>	Non encoded keypads	ms	≤ 5
<b>Mechanical life</b>	In millions of operating cycles		3
<b>Key colours</b>			Grey RAL 7032 and beige RAL 1019
<b>Key travel</b>		mm	2
<b>Operating force</b>	With tactile feedback	N	4
<b>Mounting</b>	12 and 16-way keypads		Surface mounting (fixing by keypad base onto panel)
	12, 16, 20 and 54-way keypads		Flush mounting (fixing from rear of panel into cut-out)
<b>Type of connection</b>			Non encoded keypads: straight gold plated male connector or 0.3 m ribbon cable + gold plated female connector

#### Keypads with non encoded output

<b>Type of contact</b>			By gold or silver contact module soldered to printed circuit
<b>Switching compatibility</b>	Gold contacts		TTL or CMOS, nominal rating: 5 V - 0.5 mA
	Silver contacts		Compatibility with PLCs
<b>Insulation resistance</b>		MΩ	> 100
<b>Discharge voltage withstand</b>	Conforming to IEC 801-2	kV	≤ 12 ; safety class 3
<b>Operational power</b>	Gold contacts		5 V - 0.5 mA
	Silver contacts		48 V - 200 mA
<b>Dielectric strength</b>		kV	≥ 2.5
<b>Output mode</b>	Depending on model		Common point or matrix

#### Voltage/current operating zone

#### 16-way keypads

Fixing method	Output mode	Type of connection	Type of contact	Reference	Weight kg	
Fixing from rear of panel into cut-out (flush mounting)	Common point	Straight, gold plated male connector	Gold	XBL C1016F181	0.080	
			Silver	XBL C1016F111	0.080	
		0.3 m ribbon cable + gold plated female connector	Gold	XBL C1016F184	0.100	
	Matrix	Straight, gold plated male connector	Gold	XBL C1016F281	0.080	
			Silver	XBL C1016F211	0.080	
		0.3 m ribbon cable + gold plated female connector	Gold	XBL C1016F284	0.100	
Silver			XBL C1016F214	0.100		
	Fixing by keypad base onto panel (surface mounting)	Common point	Straight, gold plated male connector	Gold	XBL C1016R181	0.100
				Silver	XBL C1016R111	0.100
0.3 m ribbon cable + gold plated female connector			Gold	XBL C1016R184	0.120	
Matrix		Straight, gold plated male connector	Gold	XBL C1016R281	0.100	
			Silver	XBL C1016R211	0.100	
		0.3 m ribbon cable + gold plated female connector	Gold	XBL C1016R284	0.120	
Silver			XBL C1016R214	0.120		

**Note:** For specific 12 and 16-way non encoded keypads, see Order form on pages 35042/5 and 35042/6.

#### Accessories for 12 and 16-way keypads

Description		Reference	Weight kg
Connecting ribbon cable length 0.50 m	18-way	XBL Z511	0.027
Straight male connector for soldering onto printed circuit board	2 x 10-way	XBL Z512	0.003
<b>Assembly:</b> frame, seal and fixings for surface mounting of a flush mounting type keypad	For 12-way keypads	XBL Z612	0.033
	For 16-way keypads	XBL Z616	0.040

**Note:** It is possible to convert the 2 x 10-way female connector/ribbon cable to a screw terminal type connector by using an AB1 BCP20235U plug-in terminal block. Please consult your Regional Sales Office.

### 20 and 54 key

XBL C1020F2●●

XBL C1054F●●●

XBL Y01

XBL Y02

#### References (continued)

##### 20-way keypads

Fixing method	Output mode	Type of connection	Contact	Reference	Weight kg
Fixing from rear of panel into cut-out (flush mounting)	Matrix	Straight, gold plated male connector	Gold	XBL C1020F281	0.120
			Silver	XBL C1020F211	0.120
	Matrix	0.3 m ribbon cable + gold plated female connector	Gold	XBL C1020F284	0.140
			Silver	XBL C1020F214	0.140

##### 54-way alphanumeric keypads

Fixing method	Type of contact	Output mode	Type of connection	Contact	Reference	Weight kg
Fixing from rear of panel into cut-out (flush mounting)	Gold or silver (recommended for very dirty or dusty environments)	Matrix	Elbowed, gold plated male connector	Gold	XBL C1054F282	0.380
				Silver	XBL C1054F212	0.380
	Matrix	0.3 m ribbon cable + gold plated female connector	Gold	XBL C1054F284	0.400	
			Silver	XBL C1054F214	0.400	
Conductive silicone	Matrix	Elbowed, gold plated male connector	–	XBL C1054F222	0.380	
			0.3 m ribbon cable + gold plated female connector	–	XBL C1054F224	0.400

These keypads include 2 keys with a red LED (10 mA max.) for the functions “Shift lock” and “Control” (CTRL), the connections of which are brought out separately, in addition to those of the “Shift” key (resistor to be connected in series, see scheme on page 35045/7).

**Note:** For specific 20 and 54-way non encoded keypads, see Order form on pages 35042/5 to 35042/7.

##### Separate components for 12 and 54-way keypads

Description	Unit reference	Weight kg
White legends (blank) (sold in sheets of 40 legends)	XBL Y01	0.002
	XBL Y02	0.002

<b>Customer</b>			<b>Schneider Electric Industries</b>	
Company	Order N°	Delivery date	Sales office - Subsidiary Co.	Order N°

These keypads are identical to the standard types except that they may be customised by:

- Using keys of alternative colours.
- Marking individual keys with characters or symbols as shown on pages 35044/2 and 35044/3.
- Using keys with transparent plunger caps, enabling blank white legends to be inserted (1).
- Fitting a ribbon cable longer or shorter than the standard length.

### Basic reference to be completed

Elbowed, gold plated male connector									<input type="text" value="4"/>	<input type="text"/>	<input type="text"/>
Ribbon cable + gold plated female IDC connector, length 30 cm									<input type="text"/>	<input type="text"/>	<input type="text"/>
Ribbon cable									<input type="text"/>	<input type="text"/>	<input type="text"/>
Length other than 30 cm, please specify in cm (max.: 90 cm, in steps of 10 cm)									<input type="text"/>	<input type="text" value="L"/>	<input type="text"/>

### Directions for use

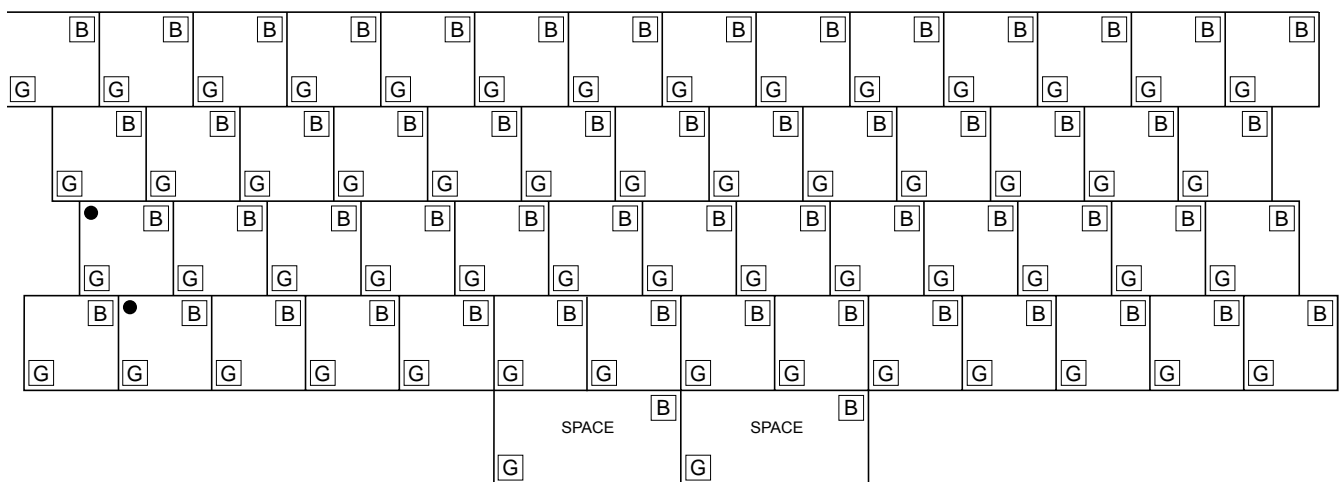

For each key of the keypad select:

- The colour, by ticking the appropriate box:
  - B for beige,
  - G for grey.
- The character or number (indicate clearly on the diagram),
- or a character or symbol selected from pages 35044/2 and 35044/3 (indicate the reference clearly on the diagram).

**Note:**

For a legend holder (transparent plunger cap for white legend) (1), mark 2 oblique strokes.  
For a black matching blanking plug in unused ways, mark a cross.

### 54-way keypad (front view)

- Red LEDs (connect resistor in series, see scheme on page 35045/7).

### Example of form completion

(1) For blank white legends, see references page 35042/4.
