

Seagate®
GoFlex™ Pro For Mac®
ULTRA-PORTABLE DRIVE
DISQUE ULTRAPORTABLE

Perfect for when you need to:

- Store files or backup using Time Machine® software
- Read, write and share files between Mac® and PC computers
- Carry files with you on-the-go

Capacities 500GB, 750GB

A Mac® ready solution with FireWire® 800, 7200RPM performance and Time Machine® software compatibility that can be used interchangeably with a PC.

The GoFlex Pro for Mac® ultra-portable drive is a complete Mac® computer solution. It has a faster 7200RPM drive, which takes full advantage of the included FireWire® 800 adapter and cable, the fastest interface built in to Mac® computers. The drive is formatted for Mac® computers out of the box, making it fully compatible with Time Machine® software. Use the included plug-and-play USB 2.0 or FireWire® 800 interface, or upgrade to powered eSATA or USB 3.0 by pairing the drive with the appropriate GoFlex upgrade cable to get even faster transfer speeds. Pair the drive with other GoFlex storage system products and access your content on your TV, over your network or on-the-go. Install the downloadable HFS+ driver on a PC, and the drive can be used interchangeably on both Mac® and PC computers without formatting. This is the perfect solution for primarily Mac® computer users who still regularly utilize a PC without any program limitation or file size restrictions. The drive's durable soft-touch metallic finish not only helps resist fingerprints, it also blends in perfectly with Apple® products.

Highlights

- High performance 7200RPM drive
- FireWire® 800 or USB 2.0 plug-and-play
- Compatible with Time Machine® software
- Upgradable to USB 3.0 and powered eSATA
- Use the same drive interchangeably on both Mac® and PC computers
- Durable soft-touch silver finish to help withstand fingerprints
- 3-Year Limited Warranty
