The GoFlex™ Slim is not only thinner than most external drives, it also offers 7200RPM performance and USB 3.0. The faster drive speed, takes full advantage of the included plug-and-play USB 3.0 interface, allowing for up to 10x faster transfer speeds. USB 3.0 is backwards compatible with USB 2.0 (at USB 2.0 speeds), offering further interface flexibility. Install the pre-loaded NTFS driver on a Mac and use the drive interchangeably between PC and Mac® computers without formatting and performance loss. Premium automatic backup and encryption software is also pre-loaded on the drive for ease of installation.
