Product Features

The original

WD Blue drives are designed and manufactured with the proven technology found in WD's original award-winning desktop hard drives.

WD quality

Built to the highest standards of quality and reliability, these drives offer the features and capacity ideal for your everyday computing needs.

More options

These drives are available in a broad range of capacities, cache sizes and interfaces so you can be sure there's a drive that's the perfect fit for your system, in more ways than one.

NoTouch™ ramp load technology

The recording head never touches the disk media ensuring significantly less wear to the recording head and media as well as better drive protection in transit.

Low power consumption

State-of-the-art seeking algorithms and advanced power management features ensure low power consumption.

SATA or PATA interface

While SATA has become the industry standard interface, WD continues to manufacture desktop drives with a PATA interface for unique or legacy systems.

Tested for compatibility

We perform tests on hundreds of systems and a multitude of platforms in our FIT Lab™ to give our customers confidence that our drives will work in their systems.
